# VOTING RECORD 2011–2012 VERMONT

## YOUR LEGISLATORS' VOTING RECORD ON SMALL BUSINESS ISSUES

**2011–12 SESSION:** Listed below are votes cast by members of the Vermont General Assembly on bills or amendments of particular interest to small business owners during the past legislative biennium. Although this Voting Record cannot reflect every deliberation that legislators take into consideration when casting a particular vote, this record serves as a guide for the purpose of evaluating lawmakers on their understanding of issues important to small business. Please thank those legislators who assisted NFIB/VT's effort to promote and protect the rights of our members to own, operate and grow their businesses.

### VOTING KEY

| | | |
|---|---|---|
| Y | = | Voted "Yes" |
| N | = | Voted "No" |
| % | = | Percentage voting with NFIB position |
| * | = | Not in chamber for vote |
| N/A | = | Not in elected office at time of vote |

**1 Mandatory Employment Breaks (H.41):** Requires employers to ensure each employee has paid or unpaid breaks from work totaling at least 30 minutes during six consecutive hours of work. This legislation opens the door to additional mandates and imposes unnecessary consequences on employers. **A "NO" vote supports the NFIB position.** Passed the House 72–61–16.

**2 Single-Payer Healthcare Amendment (H.202)**: Proposed by Reps. Heidi Scheuermann (Stowe) and Oliver Olsen (Jamaica), this amendment ensures neither employers or employees would be required to contribute to financing the Vermont health benefit exchange or Green Mountain Care if the employer or employee chooses not to participate in the program. **A "YES" vote supports the NFIB position.** Failed the House 49–88–12.

**3 Energy Act of 2011 (H.56):** The 2011 omnibus energy bill passed the Senate with a 55-cent-per-month charge on all Vermonters' electric bills to fund the development of renewable energy projects. This was replaced with a proposal from the governor's administration that offered developers grants on renewable energy projects. The lump-sum grants, which are worth up to 50 percent of the total cost of the renewable energy projects, are meant to entice developers to take the cash rather than a tax break over a five-year period. However, this proposal only shifts the cost of financing the Clean Energy Development Fund from one party onto other parties, rather than finding a permanent solution to sustain the fund. **A "NO" vote supports the NFIB position.** Passed the House 132–4–13.

**4 Mandating Childcare Unionization (H.97)**: Allows all early-childhood educators to form a union and creates a new model of collaboration with the state. The legislation opens the door to a slippery slope of increased costs for taxpayers and further budget problems for the state of Vermont. **A "NO" vote supports the NFIB position.** Passed the House 90–55–4.

**5 Miscellaneous Tax Bill (H.436):** Raises more than $85 million in state revenue, including $24 million in taxes on managed care organizations; increased taxes on upper-income tax brackets to raise $30 million to $40 million; a 27-cent hike on cigarettes; and a 1-cent increase in the state property tax rate to cover a $23 million deficit in education spending. **A "NO" vote supports the NFIB position.** Passed the House 94–48–7 and the Senate 17–10–3, and was signed by the governor.

**6 2012 State Budget (H.558):** Merges revenue from the Catamount Fund into the State Health Care Resources Fund (SHCRF), which comes from the Employer Assessment originally imposed on businesses for the Catamount Health Fund. The Legislature failed to gain input from the business community before passing this legislation. **A "NO" vote supports the NFIB position.** Passed the House 101–37–10. Passed in the Senate 27–3–0. Signed by the governor.

**7 Healthcare Reform Implementation (H.559):** An amendment by Reps. Clark (Vergennes) and Higley (Lowell), allows for the purchase of health insurance plans outside of the exchange. **A "YES" vote supports the NFIB position.** Failed the House 57–80–12.

**8 Renewable Energy Portfolio (S.214):** Introduces some of the most costly provisions of the session by adding an additional 77.5 megawatts of total capacity on top of the 50 megawatts approved in the "standard offer" projects from the previous
